

AMUZULOH SAAD SALIM

Full-Stack Web Developer | Database Management | Cybersecurity

0577 428 684 / 0555 661 827 | salimsaad135@gmail.com | <https://www.linkedin.com/in/amuzuloh-saad-salim-> | Accra, Ghana

PROFESSIONAL SUMMARY

Final-year BSc Information Technology student at the University of Ghana with hands-on experience in full-stack web development, database management, and IT support. Developed a comprehensive School Management System and an e-commerce platform while co-founding Innovatex, a freelance web development initiative that delivers digital solutions for businesses. Experienced in teaching ICT, managing computer laboratories, and providing technical support in an educational environment. Currently pursuing the ISC2 Certified in Cybersecurity (CC) certification and eager to contribute technical expertise, problem-solving skills, and a strong work ethic in a National Service role within software development, IT support, or cybersecurity.

SYSTEMS & TOOLS	SKILLS	COMPETENCIES (BULLET POINTS)
• Programming & Web Development: HTML, CSS, JavaScript, PHP • Database Management: MySQL, phpMyAdmin, relational database design • Web Application Security: SQL injection prevention, password hashing, secure file upload handling, role-based access control • Tools & Environment: XAMPP, Visual Studio Code, version control basics • Currently Learning: Cybersecurity fundamentals (certification in progress)	• Programming & Web Development: HTML, CSS, JavaScript, PHP • Database Management: MySQL, phpMyAdmin, relational database design • Web Application Security: SQL injection prevention, password hashing, secure file upload handling, role-based access control • Tools & Environment: XAMPP, Visual Studio Code, version control basics • Currently Learning: Cybersecurity fundamentals (certification in progress)	• Problem solving • Stakeholder & project management • Teamwork and collaborative problem-solving • Clear communication with both technical and non-technical stakeholders • Adaptability and fast learning in new technical environments • Leadership and decision-making, developed through entrepreneurial experience

ACHIEVEMENTS

- Developed a full-stack School Management System with role-based access, attendance management, and automated report cards.
- Co-founded Innovatex, providing websites and customized web-based management systems.
- Managed and provided technical support for an ICT laboratory serving approximately 100 students.

WORK EXPERIENCE

Freelance Web Developer (Innovatex) | January 2026 – Present

- Co-founded a freelance web development initiative focused on helping businesses establish and strengthen their online presence.
- Design and develop responsive websites and customized web-based management systems for clients.
- Collaborate with team members to deliver tailored software solutions.
- Maintain and troubleshoot web applications.
- Provide technical support and digital solutions for clients.

ICT Teacher & IT Support Assistant – Eagle Vision Basic School | 2019 – Present

- Teach ICT across multiple grade levels.
- Prepare lesson notes, tests, and examination questions.
- Mark assignments and examinations.
- Manage an ICT laboratory serving approximately 100 students.
- Install software and configure printers.
- Troubleshoot hardware and software issues and support staff with ICT.

EDUCATION | CERTIFICATIONS

ISC2 (In Progress)

Certified in Cybersecurity (CC)

PROJECTS

Smart School Management System — Final Year Project

2025 – 2026

A full-stack school management platform built for a basic school, covering students, teachers, parents, attendance, results and report cards.

- Designed and built a role-based web platform (PHP, MySQL, HTML, CSS, JavaScript) supporting separate Admin, Teacher and Parent portals.
- Implemented secure authentication with hashed passwords, SQL-injection-safe prepared statements, and protected file uploads.
- Built an automated admission system with auto-generated admission numbers and automatic parent account creation.
- Developed a flexible class/subject/teacher assignment system and an attendance & results module with automatic grade calculation and printable, school-branded report cards.
- Designed a simplified, accessible parent portal interface for users with limited digital literacy.

E-Commerce Website — Personal Project

- Designed and developed a functional e-commerce website with product listings and a working purchase/checkout flow, applying responsive design principles for usability across devices.

CERTIFICATIONS & COURSES

- Cybersecurity Fundamentals — Short Course (In Progress; certification expected before completion of programme)
